

# Am I Bothered?

## about...

- ✓ IT downtime & troubleshooting potentially costing me or my company thousands of pounds an hour in lost productivity & profit?
- ✓ Always having to report every issue to my IT Support company, rather than them being ahead of the game sometimes?
- ✓ Having to wait for my IT support to turn up or respond within an SLA?
- ✓ Big, unexpected and unbudgeted invoices for IT Support work?
- ✓ My company's data being backed up successfully, in case it is corrupted or lost for good?
- ✓ Not being able to get hold of my IT Support company out of hours?

**If any of these apply then call 0845 899 1422 and speak to someone in the Customer Care Department or alternatively wait for the next postcard with all the answers !;-)**
