

Cisco Business Edition 6000

Simple Solution, Big Capability

Meet growing employee and business demands.

Connect up to 1000 users with powerful collaboration capabilities.

Embrace collaboration technology to solve challenges.

And achieve it all with a single, integrated platform – Cisco® Business Edition 6000 (BE6000).

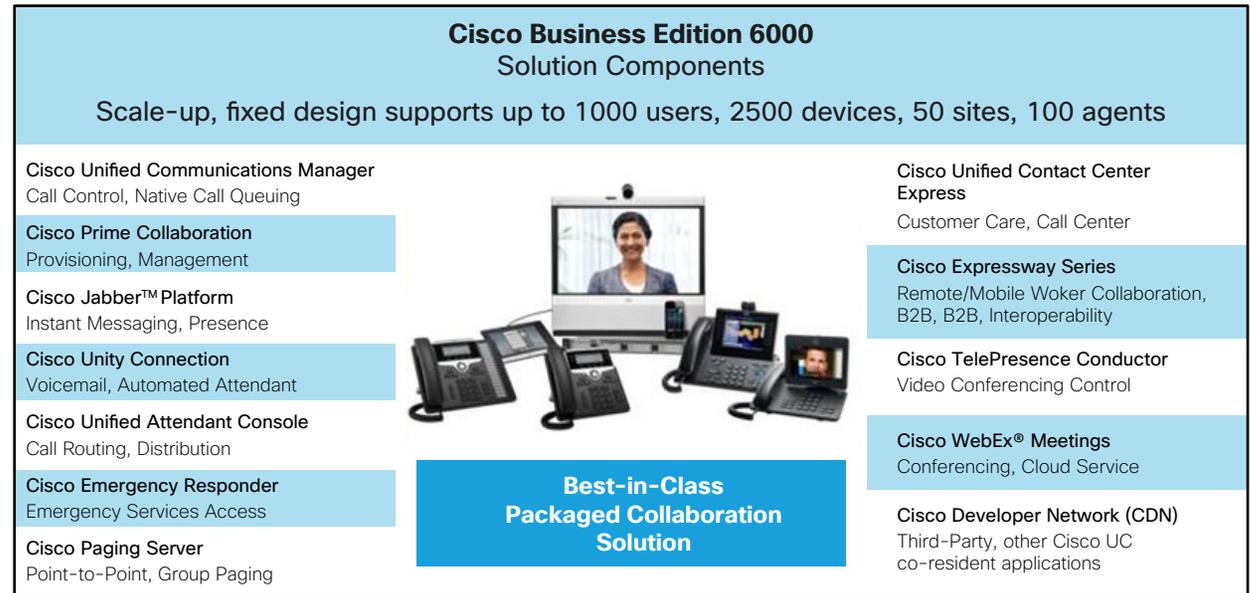

Cisco BE6000 brings people together through core collaboration applications on any device, from any location, at any time. Its comprehensive, open, and interoperable architecture lets midsize businesses fulfill specific needs with less hardware and reduced IT complexity.

Collaboration Promotes Performance

The “how”, “when”, and “what” of collaboration is changing. Today, users connect openly and frequently with tools that promote the exchange of rich information regardless of physical boundaries. As more collaboration services and devices hit the market, the demand for and dependency on such technology grows. In fact, 71 percent of CIOs believe their organizations will lose market share if they do not embrace new technology (Source: CIO Study – Executive Summary, Harvey Nash, 2013).

With Cisco BE6000, IT can deliver more valuable communication services with far less effort. One centrally managed platform offers premium voice, video, mobility, messaging, conferencing, instant messaging and presence, and contact center features, in addition to supporting approved third-party applications.

Right Capabilities, Right Price, Just Right

Built on the proven and trusted Cisco Unified Communications architecture, the Cisco BE6000 platform is:

- Complete: Provides end-to-end collaboration capabilities for all users
- Affordable: Right-priced solution immediately reduces operational costs
- Simple: Streamlines administration with unified provisioning and automated licensing
- Interoperable: Supports Cisco and approved third-party business applications and endpoints
- Highly-available: Optional redundancy and survivable branch office provide peace of mind
- Scalable: Easily upgradable with the built-in ability to grow and change

Solution Benefits

With the Cisco BE6000 solution, you will gain:

- Business benefits:
 - Improve staff productivity with powerful collaboration tools, and dynamically collaborate with suppliers, partners, and customers
 - Respond quickly to users' increasing demands to work securely from anywhere using the devices they prefer
 - Enable consistent experiences with high-quality call center capabilities that increase end-user satisfaction and loyalty
 - Bring employees and customers closer together with face-to-face interactions that accelerate decision making
- System benefits:
 - Maximize IT spend with the ability to run up to nine applications concurrently on a single-server platform
 - Simplify system management and maintenance

Credit Union Lowers Cost, Boosts Productivity, and Improves Communication

Stanford Federal Credit Union experienced immediate benefits after implementing Cisco BE6000. Monthly telecommunication costs dropped 60 percent, and administrative processes that once took days now take minutes. Furthermore, improved collaboration and communication between employees and customers increased productivity and enhanced the overall customer experience.
